I. Auctions
  [] seller creates auctions and posts items for sale
          [] set all the characteristics of the item
          [] set closing date and time
          [] set a hidden minimum price (reserve)
   [] a buyer should be able to bid
          [] let the buyer set a new bid
          [] in case of automatic bidding set secret upper limit and bid increment
          [] alert other buyers of the item that a higher bid has been placed (manual)
          [] alert buyers in case someone bids more than their upper limit (automatic)
  [] define the winner of the auction
          [] when the closing time has come, check if the seller has set a reserve
          [] if yes: if the reserve is higher than the last bid none is the winner.
          [] if no: whoever has the higher bid is the winner
                  [] alert the winner that they won the auction

Erwin

II. Browsing and advanced search functionality
   [] let people browse on the items and see the status of the current bidding
   [] sort by different criteria (by type, bidding price etc.)
   [] search the list of items by various criteria.
   [] a user should be able to:
          [] view all the history of bids for any specific auction
          [] view the list of all auctions a specific buyer or seller has participated in
          [] view the list of "similar" items on auctions in the preceding month (and auction
information about them)
   [] let user set an alert for specific items s/he is interested
          [] get an alert when the item becomes available
   [] users browse questions and answers
   [] users search questions by keywords

Nathaniel

I||. Admin and customer rep functions
    [] Admin (create an admin account ahead of time)
          [] creates accounts for customer representatives
          [] generates sales reports for:
                  [] total earnings
                  [] earnings per:
                          [] item
                          [] item type
                          [] end-user
                  [] best-selling items
                  [] best buyers

    [] Customer representative functions:
